GRADES/ASSIGNMENTS NOTIFICATION SETTINGS

March 21, 2016 Release:

Grades notifications have been updated to now send notifications for changes to **In Progress** grades. Previously, only changes to final grades were sent. This change affects both the push notifications for Mobile Portal apps on IOS and Android and the web portal notifications.

Additionally, on the web portal, parents and students now have the option of setting thresholds for notifications. When a threshold is selected by the user, only notifications for scores (assignments) and posted grades that fall below the selected percentage will be sent.

Threshold updates are not available for Mobile Portal apps. It will be available in a future update.

Notification Settings

Notification Settings

Check each notification that you want to receive. Unchecking the box will stop the notification. A notification is deleted after 30 days.

Parents - Settings will apply to all students in the household and affect only your notifications. Students make their own settings to affect their own notifications.

Students - Your settings will apply to your notifications only.

☑ **Attendance** (Notifies you when there is an absence or tardy)

☑ **Grade Changes** (Notifies you when a grade is changed)
